

Teng Hong Lee

Full Stack Developer

Full stack developer with 2+ years building and testing robust web, mobile, and back-end applications. Deep hands-on experience with React Native mobile development, API integration, AWS serverless architecture, and test automation using Jest/PHPUnit. Passionate about crafting high-quality solutions from front-end to back-end. Detail-oriented, organized and meticulous employee. Works at fast pace to meet tight deadlines. Enthusiastic team player ready to contribute to company success.

Work History

2021-04 -
Current

Software Engineer

HeyOrca! Inc, St. John's, NL

- Solely maintained and managed the entire mobile app code base using the React Native framework, ensuring consistent performance and functionality.
- Converted the legacy React Native mobile JavaScript codebase to TypeScript, improving code quality, maintainability, and developer collaboration.
- Developed and implemented multiple new features, enhancing the user experience and functionality of the app.
- Seamlessly integrated external TikTok API into the web app

Personal Projects

- Social Media Like Portfolio webapp (Nextjs, Reactjs, PostgreSQL)
- Anime generator webapp (NodeJS, REACTJS, PostgreSQL)
- **Covid-19 Data Visualization** (D3js, HTML, CSS, Javascript)
- **Spreadsheet** Webapp (Nodejs, SQLite3, Mustachejs, JavaScript, HTML, CSS)
- Responsive Weather App (ReactJS)
